The town personnel may have traffic-control devices tested under actual conditions of traffic.

SECTION 15-202 DESIGN AND CONSTRUCTION OF TRAFFIC-CONTROL DEVICES: MANUAL OF SPECIFICATIONS.

All traffic-control signs, signals and devices shall conform to the latest edition of the "Manual on Uniform Traffic Control Devices for Streets and Highways" as published by the Oklahoma Department of Transportation. All signs and signals required hereunder for a particular purpose shall so far as practicable be uniform as to type and location throughout the town. All traffic-control devices so erected and not inconsistent with the provisions of state law or this chapter shall be official traffic- control devices.

SECTION 15-203 TRAFFIC SIGNS REQUIRED FOR ENFORCEMENT.

No provision of this chapter for which signs are required shall be enforced against an alleged violator if at the time and place of the alleged violation an official sign was not in proper position and sufficiently legible to be seen by an ordinarily observant person. Whenever a particular section does not state that signs are required, such section shall be effective even though no signs are erected or in place.

SECTION 15-204 OBEDIENCE TO OFFICIAL TRAFFIC- CONTROL DEVICES.

The driver of any vehicle shall obey the instructions of any official traffic-control device unless otherwise directed by a police officer, subject to the exceptions granted in this chapter to the driver of an authorized emergency vehicle.

SECTION 15-205 TRAFFIC CONTROL SIGNAL LEGEND.

Whenever traffic is controlled by traffic-control signals exhibiting the word "Go," "Caution" or "Stop," or exhibiting different colored lights successively one at a time, or with arrows, the following colors only shall be used, and the terms and lights shall indicate and apply to drivers of vehicles and pedestrians as follows:

1. Green alone or "Go":
 - a. Vehicular traffic facing the signal may proceed straight through or turn right or left unless a sign or barricade at such place prohibits either such turn. But vehicular traffic, including vehicles turning right or left, shall yield the right-of- way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited; and
 - b. Pedestrians facing the signal may proceed across the roadway within any marked or unmarked crosswalk.;
2. Steady yellow alone:
 - a. Vehicular traffic facing the signal is thereby warned that the red or "Stop" signal will be exhibited immediately thereafter, and such vehicular traffic shall not enter or be crossing the intersection when the red or "Stop" signal is exhibited; and
 - b. Pedestrians facing such signal are thereby advised that there is sufficient time to cross the roadway, and any pedestrian then starting to cross shall yield right- of-way to all vehicles;
3. Steady red alone or "Stop":
 - a. Vehicular traffic facing the signal shall stop before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection, and shall remain standing until green or "Go" is shown alone. However, vehicles in the right traffic lane after making a stop as above required may enter the intersection cautiously and make a right turn unless "No Turn on Red" signs are posted to prohibit right turns; but such vehicle shall yield the right-of-way to any pedestrian or other traffic in the

Traffic and Vehicles

intersection, and such turn shall not be made so as to interfere with traffic proceeding on a green signal indication on the cross street; and

- b. No pedestrian facing such signal shall enter the roadway until the green or "Go" is shown alone or until authorized so to do by a pedestrian "Walk" signal; and
4. Steady red with green arrow:
 - a. Vehicular traffic facing such signal may cautiously enter the intersection only to make the movement indicated by such arrow, but shall yield the right-of-way to pedestrians lawfully within a crosswalk and to other traffic lawfully using the intersection;
 - b. No pedestrian facing such signal shall enter the roadway until the green or "Go" is shown alone or until authorized so to do by pedestrian "Walk" signal; and
 - c. In the event an official traffic-control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable- except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made. In the absence of any such sign or marking, the stop shall be made at the signal.

SECTION 15-206 PEDESTRIAN-CONTROL SIGNALS.

Whenever special pedestrian-control signals exhibiting the term "Walk" or "Wait" or "Don't Walk" are in place, such signals shall indicate as follows:

- B. This section shall not apply at railroad grade crossings.

SECTION 15-208 PEDESTRIAN-ACTIVATED SCHOOL CROSSING SIGNALS.

Whenever a pedestrian-actuated school crossing signal is provided, it requires obedience by vehicular traffic and pedestrians as follows:

1. Flashing yellow:
 - a. When a yellow lens is illuminated with rapid intermittent flashes, drivers or operators of vehicles may proceed through the intersection or past such signal only with caution; and
 - b. Pedestrians shall not proceed in conflict with traffic, but may actuate the signal- control switch, and shall wait until steady red alone is shown before entering the roadway or intersection controlled by the signal;
2. Steady yellow alone:
 - a. Vehicular traffic facing the signal is thereby warned that the red or "Stop" signal will be exhibited immediately thereafter, and such vehicular traffic shall not enter or be crossing the intersection or past the signal when the red or "Stop" signal is exhibited; and
 - b. No pedestrian shall enter the roadway or intersection on which the signal controls vehicular traffic until steady red alone is shown;
3. Steady red:
 - a. Vehicular traffic facing the signal shall stop before entering the crosswalk on the near side of the intersection, or, if none, then before passing the signal or entering the intersection, and shall remain standing until flashing yellow is shown alone; and

Traffic and Vehicles

- b. Pedestrians may proceed across the road controlled by the signal, and shall be given the right-of-way by the drivers of all vehicles; and
4. Steady red and steady yellow combined:
- a. Vehicular traffic facing the signal is thereby warned that the flashing yellow signal will be exhibited immediately thereafter, and that such vehicular traffic shall remain standing until the flashing yellow is shown alone; and
 - b. Pedestrians are thereby warned that the flashing yellow signal is about to be shown, and shall not enter the signal-controlled roadway or intersection, or in a direction which conflicts with the movement of vehicular traffic; but any pedestrian who has partially completed his crossing shall proceed to the nearest sidewalk or safety island and shall be given the right-of-way by the drivers of all vehicles.

SECTION 15-209

DISPLAY OF UNAUTHORIZED SIGNS OR SIGNALS.

- A. No person shall place, maintain or display upon or in view of any highway an unauthorized sign, signal, marking or device which purports to be or is an imitation of or resembles an official traffic-control device or railroad sign or signal, which attempts to direct the movement of traffic which projects any flashing or revolving beams of light, or which hides from view or interferes with the effectiveness of any official traffic-control device or any railroad sign or signal.
- B. No person shall place or maintain nor shall any public authority permit upon any highway any traffic sign, signal or device bearing thereon any commercial or other advertising.
- C. This section shall not prohibit the erection upon private property adjacent to highways of signs giving useful directional information and of a type that cannot be mistaken for official signs.

No vehicle shall be driven to the left side of the center of the roadway in overtaking and passing another vehicle proceeding in the same direction unless such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completely made without interfering with the safe operation of any vehicle approaching from the opposite direction or any vehicle overtaken. The overtaking vehicle must return to the roadway before coming within one hundred (100) feet of any vehicle approaching from the opposite direction.

B. Except as provided elsewhere in this chapter, the driver of a vehicle overtaking another vehicle proceeding in the same direction shall pass to the left thereof at a safe distance, and shall not again drive to the right side of the roadway until safely clear of the overtaken vehicle.

2. When traversing an intersection or railroad grade crossing; or

3. When the view is obstructed upon approaching within one hundred (100) feet of any bridge, viaduct or tunnel.

B. It is a violation to pass on the left by going to the left of the center of the roadway across a double-marked center line for the purpose of passing a vehicle traveling in the same direction.

SECTION 15-507 DESIGNATION OF NO-PASSING ZONES.

A. The Oklahoma Department of Transportation as regards state and federal highways, and the town personnel, subject to direction of the board of trustees, as regards all other streets, are authorized to determine those portions of a highway where overtaking and passing or driving to the left of the roadway would be especially hazardous and shall by appropriate signs or markings on the roadway have the beginning and end of such zones indicated. When such signs or markings are in place and clearly visible to an ordinarily observant person, every driver of a vehicle shall obey the directions thereof

B. Where signs or markings are in place to define a no-passing zone, no driver shall at any time drive to the left side of the roadway within such no-passing zone or on the left side of any pavement stripping designed to mark such no-passing zone through its length.

C. The driver of a vehicle upon a street or highway with separate roadways need not stop upon meeting or passing a school bus which is on a different roadway or when upon a controlled- access highway and the school bus is stopped in a loading zone which is part of or adjacent to such street or highway and where pedestrians are not permitted to cross the roadway.

SECTION 15-509 DRIVING ON LANED ROADWAYS, MARKING TRAFFIC LANES.

A. The town personnel, subject to direction of the board of trustees, is authorized to have traffic lanes marked upon the roadway or any street where a regular alignment of traffic is necessary.

2. Upon a roadway which is divided into three (3) lanes, a vehicle shall not be driven in the center lane except when overtaking and passing another vehicle where the roadway is clearly visible and such center lane is clear of traffic within a safe distance, or in preparation for a left turn, or where such center lane is at the time allocated exclusively to traffic moving in the direction the vehicle is proceeding and is sign posted to give notice of such allocation; and

3. Official signs may be erected directing slow-moving traffic to use a designated lane or designating those lanes to be used by traffic moving in a particular direction regardless of the center of the roadway, and drivers of vehicles shall obey the directions of every such sign.

C. Where traffic lanes have been marked, no operator of any vehicle shall fail or refuse to keep the vehicle within the boundaries of any such lane except when lawfully passing another vehicle or preparatory to making lawful turning movement or otherwise authorized by ordinance.

SECTION 15-510 DRIVING ON DIVIDED HIGHWAYS.

Whenever any highway has been divided into two (2) roadways by leaving an intervening space or by a physical barrier or clearly indicated divided section so constructed as to impede vehicular traffic, every vehicle shall be driven only upon the right-hand roadway. No vehicle shall be driven over, across or within any such dividing space barrier or section, except through an opening in such physical barrier, dividing section or space or at a crossover or intersection established by public authority.

SECTION 15-511 FOLLOWING TOO CLOSELY.

The driver of a motor vehicle shall not follow another vehicle more closely than is reasonable and prudent, having due regard to the speed of such vehicles and the traffic upon and the condition of the highway. Such driver following too closely shall be deemed negligent.

A. The driver of a vehicle on a street which is not a state or federal highway approaching an intersection with a state or federal highway shall stop and yield the right-of-way to a vehicle which has entered the intersection or which is so close thereto as to constitute an immediate hazard.

B. When two (2) vehicles enter or approach an intersection from different highways at approximately the same time, the driver of the vehicle on the left shall yield the right-of-way to the vehicle on the right.

C. The right-of-way rules declared in Subsections A and B are modified at through highways and otherwise as stated in this chapter.

D. The driver of a vehicle approaching a 'P' intersection, traveling down the base of the "T" intersection approaching a dead end must yield the right-of-way to all traffic.

SECTION 15-802 RIGHT-OF-WAY AT INTERSECTIONS, VEHICLES ARRIVING AT SAME TIME.

A. Where two (2) or more vehicles face stop, slow, warning or caution signs or signals on two (2) or more intersecting cross streets, and are approaching so as to enter the intersection at the same time, where each vehicle is required to stop, the vehicle coming from the right shall have the right-of-way. Where each vehicle is required to slow, the vehicle coming from the right shall have the right-of-way. Where each vehicle is required to take caution, the vehicle coming from the right shall have the right-of-way.

B. The driver of a vehicle approaching an intersection shall yield the right-of-way to a vehicle which has entered the intersection from a different highway, provided that the driver of a vehicle on a street which is not a state or federal highway approaching an intersection with a state or federal highway shall stop and yield the right-of-way to a vehicle which has entered the intersection or which is so close thereto as to constitute an immediate hazard.

C. Where one vehicle is required to stop and the other to slow or take caution, the one slowing or taking caution, shall have the right-of-way. Where one vehicle is required to slow and the other to take caution, the one required to take caution shall have the right-of-way.

SECTION 15-803 LEFT TURN AT INTERSECTION.

The driver of a vehicle within an intersection intending to turn to the left shall give a signal and yield the right-of-way to any vehicle approaching from the opposite direction which is within the intersection or so close thereto as to constitute an immediate hazard. However, the driver, having so yielded and having given a signal when and as required by this chapter, may make such left turn, and the drivers of all other vehicles approaching the intersection from the opposite direction shall yield the right-of-way to the vehicle making the left turn.

SECTION 15-804 DESIGNATION OF THROUGH STREETS.

The town personnel, subject to direction of the board of trustees, may designate any street or part of street as a through street.

SECTION 15-805 SIGNS AT THROUGH STREETS.

Whenever the town personnel designates and describes a through street, the town personnel shall have placed and maintained a stop sign, or if deemed more appropriate at any intersection a yield sign, on each and every street intersection such through street, and a heavy-traffic street not so designated. Stop signs shall be erected at the approaches of either of the streets as may be determined by the personnel if deemed desirable.

SECTION 15-806 DETERMINATION OF STOP AND YIELD INTERSECTIONS.

A. The town personnel, subject to direction by the board of trustees, is authorized to determine and designate intersections where particular hazard exists upon other than through streets and to determine:

1. Whether vehicles shall stop at one or more entrances to any such intersection, in which event he shall cause to be erected a stop sign at every such place where a stop is required; or

Traffic and Vehicles

2. Whether vehicles shall yield the right-of-way to vehicles on a different street at such intersection as prescribed in Section 15-807, in which event he shall cause to be erected a yield sign at every place where obedience thereto is required.

B. Every stop sign and every yield sign shall be erected as near as practicable to the nearest line of the crosswalk on the near side of the intersection or, if there is no crosswalk, then as near as practicable to the nearest line of the intersecting roadway.

C. Every stop sign shall bear the word "Stop" in letters not less than eight (8) inches in height. Every yield sign shall bear the word "Yield" in letters not less than seven (7) inches in height. Every stop sign and every yield sign shall, at nighttime, be rendered luminous by internal illumination, or by a floodlight project on the face of the sign, or by efficient reflecting elements in the face of the sign.

SECTION 15-807 VEHICLES ENTERING STOP INTERSECTIONS.

A. Except when directed to proceed by a police officer or traffic-control signal, every driver of a vehicle approaching a stop intersection indicated by a stop sign shall stop before entering the crosswalk on the near side of the intersection, or, in the event there is no crosswalk, shall stop at a clearly marked stop line, but, if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection.

B. Such driver, after having stopped, shall yield the right-of-way to any vehicle which has entered the intersection from another highway or which is approaching so closely on the highway as to constitute an immediate hazard. The driver having so yielded may proceed only when it is prudent and apparently safe to do so.

SECTION 15-808 VEHICLE ENTERING YIELD INTERSECTION.

A. The driver of a vehicle approaching a yield sign shall in obedience to such sign slow down to a speed reasonable for the existing conditions, or shall stop if necessary and yield the right-of-way to any pedestrian legally crossing the roadway on which he is driving and to any vehicle in the intersection or approaching on another highway so closely as to constitute an immediate hazard. If such driver is involved in a collision with a pedestrian in a crosswalk or a vehicle in the intersection after driving past a yield sign, such collision shall be deemed prima facie evidence of his failure to yield the right-of-way.

B. The driver of a vehicle approaching a yield sign, is required for safety to stop, shall stop before entering the crosswalk on the near side of the intersection or, in the event there is no crosswalk, at a clearly marked stop line, but, if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersection roadway.

SECTION 15-809 SCHOOL ZONES AND CROSSWALKS.

A. The town personnel, subject to direction by the board of trustees, is authorized to erect signs to designate school zones and school zone crosswalks.

B. No person may drive a vehicle past a school sign or through a school zone at a speed greater than that posted per hour as stated on school days. Drivers proceeding in a school zone shall stop and yield the right-of-way to pedestrians in school zone crosswalks when so directed by a school safety patrol member or when such crosswalk is occupied by pedestrians between the hours posted on school days.

C. Any driver involved in a school zone crosswalk collision with a pedestrian after failing to slow and yield the right-of-way to such pedestrian shall be deemed to be in *prima facie* violation of this section.

SECTION 15-810 EMERGING FROM ALLEY OR DRIVEWAY.

The driver of a vehicle emerging from an alley, driveway or building shall stop such vehicle immediately prior to driving onto a sidewalk or onto the sidewalk area extending across any alleyway or driveway and shall yield the right-of-way to any pedestrian as may be necessary to avoid collision, and upon entering the roadway shall yield the right-of-way to all vehicles approaching on the roadway.

SECTION 15-811 OBSTRUCTING INTERSECTION OR CROSSWALK.

No driver shall enter an intersection or a marked crosswalk unless there is sufficient space on the other side of the intersection or crosswalk to accommodate the vehicle he is operating without obstructing the passage of other vehicles or pedestrians, notwithstanding any traffic-control signal indication to proceed.

At any intersection where traffic is permitted to move in both directions on each roadway entering the intersection, an approach for a left turn shall be made in that portion of the right half of the roadway nearest the center line thereof and by passing to the right of such center line where it enters the intersection; and after entering the intersection, the left turn shall be made so as to leave the intersection to the right of the center line of the roadway being entered. Whenever practicable, the left turn shall be made in that portion of the intersection to the left of the center of the intersection; and

3. Left turns on other than two-way roadways. At any intersection where traffic is restricted to one direction on one or more of the roadways, the driver of a vehicle intending to turn left at any such intersection shall approach the intersection in the extreme left-hand lane lawfully available to traffic moving in the direction of travel of such vehicle. After entering the intersection, the left turn shall be made so as to leave the intersection, as nearly as practicable, in the left-hand lane lawfully available to traffic moving in such direction upon the roadway being entered.

B. No person shall turn a vehicle at an intersection unless the vehicle is in proper position upon the roadway as required by this section, or turn a vehicle to enter a private road or driveway, or otherwise turn a vehicle from a direct course or move right or left upon a roadway, unless and until such movement can be made with reasonable safety.

A. Town personnel, subject to direction by the board of trustees, may determine those intersections at which drivers of vehicles shall not make a right turn, left turn or U-turn, and shall have placed proper signs at such intersections. The making of such turns may be prohibited between certain hours of any day and permitted at other hours.

B. Whenever authorized signs are erected indicating that no right turn, left turn or U-turn is permitted, no driver of a vehicle shall disobey the directions of any such sign.

SECTION 15-904 LIMITATIONS ON TURNING, U-TURNS.

B. A signal of intention to turn right or left when required shall be given continuously during not less than the last one hundred (100) feet traveled by the vehicle before turning.

C. No person shall stop or suddenly decrease the speed of a vehicle without first giving an appropriate signal in the manner provided herein to the driver of any vehicle immediately to the rear when there is opportunity to give such signal.

SECTION 15-906 SIGNALS: METHOD REQUIRED.
